PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student aspiring to build a career as a Data Analyst, with practical knowledge of Python, SQL, Excel and Power BI. Skilled in SQL querying, data cleaning, data analysis and dashboard development. Hands-on experience through academic projects using JavaScript, PHP, MySQL and web technologies. Interested in transforming data into clear, actionable insights and continuously improving analytical skills.

EDUCATION

B.Tech – Computer Science & Engineering

DRK College of Engineering, Hyderabad

Intermediate – SR Gayathri

10th Class – Vasavi High School, Nirmal

2023 – 2027

Hyderabad, Telangana

2021 – 2022 | 72%

2020 – 2021 | 100%

TECHNICAL SKILLS

Programming	Python
Database	SQL, MySQL
Data Analysis	Excel, Data Cleaning, Data Manipulation
Data Visualization	Power BI
Web Technologies	HTML, CSS, JavaScript
Tools	Git, GitHub, XAMPP

PROJECTS

Scientific Voice Calculator | JavaScript, PHP, MySQL, Web Speech API, XAMPP

- Developed a web-based scientific calculator supporting basic and advanced mathematical operations.
- Implemented voice-based input using the Web Speech API for natural-language mathematical commands.
- Added arithmetic, trigonometric, logarithmic, square-root and power operations.
- Integrated PHP and MySQL for backend processing and storing calculator-related data.
- Built an interactive interface using HTML, CSS and JavaScript.

LycasGo – Rent-to-Own EV Scooter Platform

- Worked on backend development and application integration for an EV scooter rental platform.
- Implemented and integrated functionality supporting users in exploring and managing EV rental services.
- Collaborated with team members to connect application components and support project delivery.

TRAINING

JSpiders – Data Analyst Training | July 2026 – Present

Practical training in Python, SQL, Excel, Power BI and aptitude, with hands-on exercises in data analysis, SQL querying, spreadsheets and dashboard concepts.

ACHIEVEMENTS

- Completed Web Development Course · Rinex | 5 July 2025 · 29 August 2025.
- Completed Artificial Intelligence Course · Rinex | 5 July 2025 · 30 August 2025.
- Developed and presented academic projects involving databases, web technologies and voice-based interaction.
- Built a practical foundation in Python, SQL, Excel and Power BI through structured Data Analyst training.

CAREER FOCUS

Data Analyst roles involving SQL, Excel, Python, Power BI, data cleaning, reporting and data visualization.
